Management Foreword

Dear Clients,

Dear Partners,

We always looked at our company as an exceptional opportunity to build a world class company, deploying latest technologies and best practices. We draw our strength through the loyalty of our clients as well as through a highly motivated and well qualified work force, fully equipped with necessary training and development.

Our **Vision** is to be the leader in the Middle East when it comes to Metal Processing and Manufacturing. Fantastic efforts and huge investments have been exerted towards reaching that target, however, we consider ourselves still to be at the beginning.

We see it as our **Mission** to maximize our added value and to meet our clients' expectations. We intend to do so by building *TMI* to be a state-of-the-art company, by being reliable and cost effective in our business, and last but not least, by conforming to the highest safety, health, environment and quality standards.

Dear friends, all those who know *TMI*, know that our corporate principals do concentrate themselves on 4 main aspects:

People: we respect the diversity of our people and support their welfare. We are committed to the development of our work force

Partnership: we synergize with our clients to build a productive, collaborative and trusting relationship. We adopt team spirit and openness to achieve successfully our business objectives and those of our clients.

Professionalism: we conduct our business with competence in ethical, responsible and accountable manner

Pride: we take pride in what we do. We are committed to excellence, safety, quality and environment

I would like to assure you that *TMI* will always be proud to serve you. It is our goal to serve you best & to offer you our products, solutions and services for reasonable and fair prices. We will be looking forward to hearing from you.

Yours,

Johnnie Karkabi

Managing Director

Company Profile

Established in 1997 in Abu Dhabi, UAE as a privately owned entity, specializing in Metal Processing and Manufacturing of Cable Trays, Cable Ladders and their related accessories, Expanded Metal Plastering Products, Block Works, Metal Roll Forming, Suspended Ceilings, Wall Partitions and Metal Fire-Proof Doors. Since 2010, we are manufacturing as well **Industrial & IT Cabinets** and soon we will add Industrial Shelving to *TMI*'s portfolio.

Our main plant and administration offices are located in the Industrial City of Abu Dhabi (ICAD), Mussafah consisting of over 500,000 sq feet of closed manufacturing space. In addition to our dedicated storage and logistics facility over 180,000 sq feet of space supported by *TMI*'s fleet of vehicles, enabling us to serve the UAE and the region quick, efficient, and in timely manner.

Our believe in the highest product value and prompt delivery to our clients has driven us to continuously seek and utilize the best manufacturing equipment: CNC Turret Punching, CNC Press Brake, CNC Shearing Machines, CNC Roll Forming Line, Iron Workers and fully Automated Powder Coating lines. In addition to an in-house Galvanizing Facility supported by a fully capable in-house laboratory coupled with the stringent quality control systems. Thus ensuring high quality standards supported by continued work force training and effective scrap metal disposal system, controlled through our ISO 9001 and ISO 14001 certifications, has earned us approvals from International Consultants, Contractors and Subcontractors.

About TMI Cabinets

TMI cabinets and racks offer a wide variety of products that protect and enhance the look of your electronic environment. Our server/ networking racks are top efficient and ready to use for network distribution. Our *TMI* rack is cost effective and offers you the robust 19”(482.6mm) mounting frame. Cabinets and racks are available in standard height, width and depth, that ranges from 6U wall mounted racks to 47U fully enclosed and customizable cabinets. All *TMI* wall mounted and free standing cabinets have multiple cable entry from the top and bottom. They also can take load “weight” that meets and exceeds the industry standards. In addition, we offer a full range of accessories, such as shelves, PDUs and cable management accessories.

TMI cabinets and racks are constructed from steel sheets. They are specially designed using CAD software, punched and cut by CNC Turret Punch machines, folded by CNC Press Brake machines, then joined together by spot welding. Special knockouts are added to the bottom and top panels, offering effortless cable access. In the case of wall mounted racks, keyholes are added to the back for easy hanging. *TMI* cabinets and racks go through degreasing and phosphating treatment for corrosion prevention, before proceeding to our powder coating line.

TMI has a variety of doors styles:

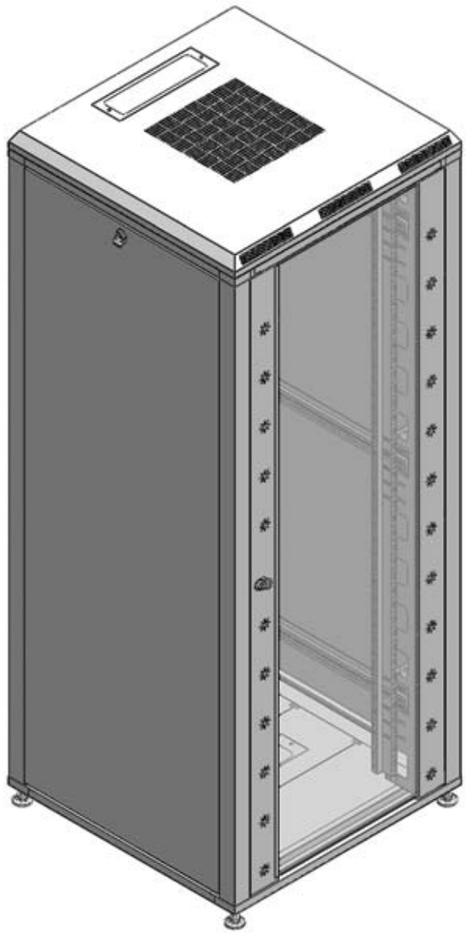
- Solid or perforated steel.
- Full glass.
- Steel and glass combination ordered design.

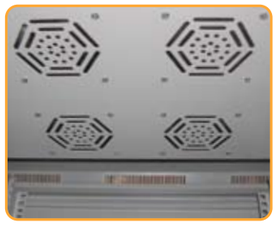
TMI cabinets & racks are manufactured according to structural performance criteria:

- Maximum door opening angle is 90° - 120°.
- We can manufacture and deliver any specially ordered design.
- Variety of color options.
- Adjustable 19” mounts.
- Lock and handle.
- Powder coated surface finish.
- Can be delivered as flat - pack.

Networking & Server Cabinets

TMI Networking cabinets are available in standard heights, widths and depths. Height: 32U, 42U & 47U. Width: 600 & 800 mm. Depth: 800 & 1000 mm.





Material Specifications:

Cold rolled steel.
Thickness: 1.2 - 1.5 mm.
Loading capacity: 1100 lbs (500 kg).
Surface finish: Degreased and phosphated for corrosion prevention.
Powder coating in RAL 7035 (Light Grey) - Textured.

Features:

- Efficiently designed 32U, 42U, 47U server cabinets.
- Solid steel welded & bolted frame to ensure stability.
- Ventilated glazed front door and ventilated steel rear door.
- Pre-punched holes on the top and rear of the cabinet for good ventilation.
- Pre-punched holes and opening on the top and bottom of the cabinet for cable entry maximum versatility.
- Plug - in side wall.
- Bottom plate with multi piece gland plate.
- Heavy duty leveling feet.
- Supplied as flat pack, easy to assemble.
- Earthing of all enclosure panel possible through copper coated bolts.

Color Options:

- Other RAL colors are available upon request.

19″ Open Frame

Out Door Gas Cabinet

Gas Meter Cabinet

First Aid Cabinet

Special Design Cabinet

Metering Box

Cable Management

- We can manufacture and deliver to any specially ordered design.

Surface Protection

The treatment of outer surfaces:

- Degreasing of Sheet Steel.
- Sheet Steel is then phosphated.
- Powder Coating (60-80 micron).
- Stove enameling.

This procedure provides optimum corrosion protection for our Racks and Cabinets.

Standard Powder Coating is resistant to:

- Mineral Oil.
- Lubricants.
- Solvents (briefly e.g. during cleaning).
- Weak acids and alkaline.

Our quality is assured by continuous process monitoring.

Coating Procedures	Technical Properties
Degreasing and Phosphating	Used for passivation, as corrosion protection and to improve paint adhesion.
Textured Powder Coating	Powder coating is distinguished by a high level of mechanical resistance, excellent corrosion protection, good resistance to chemical, and by its temperature, weather and its facility for decontamination.
